

Accordion File and Mini Cards

I love making fun projects and this new template is definitely fun! So fun in fact, that I have made loads of these little files. This versatile template includes 9 pages and will make a lovely mini accordion file, complete with file dividers, cards, greetings and mini card and envelope. You can make this as a gift for someone, full of gift cards, or make it as a home project for storing your special things. You can find lots of ideas in the Photo Gallery and I'm sure you will have lots more! [Have a look at the step by step 'How to' video to find out more.](#)
