

Small Pillow Boxes

It is so nice to give a handmade gift in handmade packaging, don't you think? If you like making your own boxes and packages, then you will definitely enjoy this quick project.

We already have a pillow box template available on the free stuff pages, but this new template includes two smaller sized ones, ideal for jewellery and other little gifts.

I've simply printed the box onto red card and then stamped and embossed it. A piece of pretty ribbon and a flower finishes this project off nicely.

You can get this template by visiting the free stuff pages on the website.
