

## Apron Cards

I really like to have fun with my card making. For me it is not just about creating a masterpiece using complicated techniques, although I have done my fair share of those over the years!

I really like to make simple and pretty cards, that take little or no effort to make but are eye catching and this new Apron Card Template is no exception. In a few minutes, you can create a lovely little card that will look so pretty and be loved by anyone who receives it. You can find this template on the Card Template page of this site.

I have added a little recipe card with a 'Recipe for Friendship' on it. I had to think a bit about the words but I made this one with my sweet friend Gill in mind. The 'Recipe for Marriage' in the pocket of the pink apron was a bit easier, after almost 20 years with my 'long suffering' husband, the words just sprang to mind. You'll be able to get these 'recipes' on the new printable sheets...see more below.

The aprons are decorated with pretty papers and some mini embellishments in the pockets, including a mini cookbook, some recipe cards, as well as some fabulous miniature cooking utensils.

These make lovely cards for lots of different occasions. Look out for our Vintage Backing Papers in lovely soft pastels, perfect for using with this template and printable sheets on a cooking and gardening theme.
