

## Best Vintage Dad

Here is another quick card project using the Apron Card Template. I've used a Cuttlebug embossing folder to add some interest to the background card, no easy matter without my Cuttlebug machine to hand (more about that in another blog post), and added a few Quiccutz die cuts for embellishment.

The corkscrew is soooo cute and I found this in a miniature tools set by Darice. The tea towel and message 'Best Vintage' is from our new freebie printable set, which you can find on the member pages.

I keep thinking of new things to add in the pockets. If you have any other ideas, why not add a comment below!

Thanks for reading!
