

Shirt, Tie and Accessories Card

I always have to do demos for new templates, to make sure that they work and fit together properly. Some templates are just part of the 'job' but some fall into the 'really fun to do' category and this new template is definitely one of those!

A cool shirt for a cool guy

I actually don't make that many 'male' cards, so I have made a special effort to include some more male themed templates and I can honestly say that I have had a great time designing and playing with this one. I've just managed to get it finished before Father's Day in Australia but as it can be used for so many different occasions that it doesn't really matter.

You get a printable sheet with this template too, so you can add all kinds of accessories to the pockets. [Check the template pages for more details about what is included.](#)

I'll post some project notes for some of these cards on the blog soon but in the meantime, here are some pictures.

Add a waistcoat for a different look

Add some sleeves, a pair of sunglasses and a business card in the pocket for a more casual look

Dress it up and change to a bow tie

Make it a black tie event

Make it simple

Or just change the occasion and use the waistcoat card

I hope you enjoy playing with this new template too.

Have a peaceful weekend!
