

## Xmas Corset Card

Today's *24 Days of Christmas* project is a fun and very quick one. I couldn't resist making this cheeky card, using our most popular template, the [Corset Card Template](#)

The bodice is stamped and heat embossed in gold and then trimmed with some glitter red lace and feather trim from the local fabric store.

Lots of you have already bought this template, so why not have a go to make a Christmas themed card and upload it to our photo gallery!

Watch out for lots more projects and some freebies in our *24 Days of Christmas* series over the next few weeks.

Happy Crafting!
