

## Your Greatest Fan

I've already done Mother's Day, as my Mum lives in the UK and the date is in March, but for many people, including myself, Mother's Day is still to come, so here is a sweet idea to make a keepsake card or chipboard project for the most important person!

This template can be made in chipboard or card and includes two sizes of stand to display your fan, which is really handy. You can fold the fan in, for mailing and it can then be opened out to display on a shelf. You can really go to town with decorating your fan with papers, stamps and all kinds of embellishments. I've used papers on my chipboard fan and some border stickers around the top, as I wanted to make a quick project.
