

## Cracker/Bon Bon Card

There is something especially 'Christmassy' about crackers or, if you prefer, bon bons. I am used to calling these crackers but I know that they go by other names around the world!

Anyway, our new card template '[Christmas Cracker](#)' will allow you to create lovely cards in no time at all, so if you have left your cardmaking to the last minute, or want to get the kids involved in a simple idea, this is the perfect template.

The file is a PDF and includes four different sizes, presented as both a single template which you can draw around, or foldable ones, which you can print directly to card.

Our cracker has scallop edges, which give it a nice refined look and you can simply embellish it with some Christmas scrapbook papers, pretty ribbon, a simple sticker greeting and a few dabs of glitter glue.
