

Itsy Bitsy Witch Halloween Card

Here is a super quick card made using the new Itsy Bitsy Witch digital image on the Free stuff pages, printed onto card and orange stripe backing paper, [available during October](#)

I've chosen not to colour the image, because I wanted a black and white theme, so have simply mounted it on some black and orange card. The paper strip uses the free backing paper punched with a scallop edging punch. A piece of black sparkly fibre around the side, finishes it off.

I'll be adding some more digital images between now and Halloween, so if you like them, please leave a comment below. The more comments, the more I feel inspired to create!
