

Stocking Card

Day 13 of our Christmas Series brings the newest addition to the card template pages, a cute [Stocking Card Template](#), to make large and small cards, gift tags and an advent calendar.

Stocking embossed with Cuttlebug folder and sanded lightly, then filled with a die cut and chalked teddy, cracker and a square of chipboard wrapped as a gift. Items glued behind. Trimmed with feather trim and handmade paper.

The download includes the basic template for a large and two smaller stockings, as well as 'print direct to card' templates. I found this to be a great way to use up your scrap Christmas papers!

Use up your scraps to make cute Gift Tags

Make an unusual advent calendar

The template includes a set of numbered tags, so you can make a novel advent calendar. Cut 12 and then just turn them around and refill them from days 13 to 24. Cut them from paper and card or even use felt to make your stockings.

Our next project, will feature a free download, so join us again here on the blog soon!

Happy Crafting!
